

American Century One Choice 2025 Fund (Inv)

The Fund seeks the highest total return consistent with its asset mix. The Fund is a fund of funds, meaning that it seeks to achieve its objective by investing in other American Century mutual funds that represent a variety of asset classes and investment styles. The target date in the Fund name refers to the approximate year an investor plans to retire and likely would stop making new investments in the Fund.

Fee Summary

Total Annual Operating Expenses (12/01/2024) 0.80%
Total Annual Operating Expenses (per \$1,000) \$8.00
Net Expense Ratio 0.78%

The Fee Summary shows fee and expense information for the fund. Total Annual Operating Expenses ("gross expense ratio") are expenses that reduce the rate of return for the fund. Total Annual Operating Expenses do not reflect any fee waivers or reimbursements that may be in effect at the time the expenses are calculated. The net expense ratio reflects the expenses being charged by the fund at the time the expenses are calculated after taking into account any applicable waivers or reimbursements, without which performance would have been less. The Fee Summary also shows Shareholder-type Fees. These fees are in addition to Total Annual Operating Expenses.

Shareholder-type Fees

Redemption Fee N/A
Purchase Fee N/A
Maximum Sales Charge N/A
Maximum Deferred Sales Charge N/A

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Employee Benefits Security Administration's web site for an example showing the long-term effect of fees and expenses. Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.

Performance at NAV (as of 03/31/2025)

* The S&P Target Date 2025 is a multi-asset class index providing exposure to equity and fixed income securities at a level appropriate for a 2025 target retirement date. You cannot invest in an index.

Investors may obtain performance current to the most recent month end at www.americancentury.com.

Performance quoted represents past performance and cannot guarantee future results. Current performance may be lower or higher than the performance shown. Investment return and principal value will fluctuate. An investor's shares, when redeemed, may be worth more or less than their original purchase price. Performance includes the reinvestment of dividends and capital gains. Investments in money market funds are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in a money market fund. The 7-day yield more closely reflects the Fund's current earning than the quotation of total return.

Investments in target-date funds are subject to the risks of their underlying funds. The year in the fund name refers to the approximate year when an investor would retire and leave the workforce. Target-date funds gradually shift emphasis from more aggressive investments to more conservative investments based on the target date. Investments in target-date funds are not guaranteed at any time.
