

# Am. Funds Retire Income Portfolio-Cnsrv (R6)

The Fund seeks current income, long-term growth of capital and conservation of capital, with an emphasis on income and conservation of capital. The Advisor will attempt to achieve its investment objectives by investing in a mix of American Funds in varying combinations and weightings over time. The underlying Funds will typically seek to generate income from their investments. The Fund is one of a suite of three American Funds Retirement Income Portfolios designed to help investors in or near retirement with a withdrawal program. It seeks to provide the lowest downside risk.

The Fee Summary shows fee and expense information for the fund. Total Annual Operating Expenses ("gross expense ratio") are expenses that reduce the rate of return for the fund. Total Annual Operating Expenses do not reflect any fee waivers or reimbursements that may be in effect at the time the expenses are calculated. The net expense ratio reflects the expenses being charged by the fund at the time the expenses are calculated after taking into account any applicable waivers or reimbursements, without which performance would have been less. The Fee Summary also shows Shareholder-type Fees. These fees are in addition to Total Annual Operating Expenses.

## Shareholder-type Fees

Redemption Fee ..... N/A  
Purchase Fee ..... N/A  
Maximum Sales Charge ..... N/A  
Maximum Deferred Sales Charge ..... N/A

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Employee Benefits Security Administration's web site for an example showing the long-term effect of fees and expenses. Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.

Performance quoted represents past performance and cannot guarantee future results. Current performance may be lower or higher than the performance shown. Investment return and principal value will fluctuate. An investor's shares, when redeemed, may be worth more or less than their original purchase price. Performance includes the reinvestment of dividends and capital gains. Investments in money market funds are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in a money market fund. The 7-day yield more closely reflects the Fund's current earning than the quotation of total return.

The current prospectus for the fund contains information about the fund's investment objectives, risks, fees, and expenses. Investors should consider this information carefully before investing. A prospectus may be obtained free of charge at [www.americanfunds.com](http://www.americanfunds.com).
